# Safe and roadworthy

## At Vauxhall we believe in the adage “prevention is better than cure”

So, keeping your car in a safe and roadworthy condition is our first priority. After all your car is probably the second biggest single purchase you make, after a house.

So, whenever your Vauxhall passes through our workshop\* it will undergo a Visual Health Check (VHC) – a comprehensive visual inspection of the key functions of your Vauxhall to ensure its safety on the road, such as brakes, steering and tyres.

The VHC inspection will be made no matter what your vehicle was originally booked in for. This is because at Vauxhall MasterFit we believe we have a legal ‘duty of care’ or obligation to our customers.

You will receive a no-obligation written report on your car which will include any recommendations for each item, along with a fixed price quote should any faults be found\*\*

So, next time your car is due for service, contact your local Vauxhall MasterFit retailer.

The Visual Health Check report includes the following checks, with a report and recommendation for each item, where applicable:

### Electrics and lights:

- Check mandatory lights
- Check operation of horn/wipers/washers

### External/internal:

- Check brakes for noise and feel
